

American Food Necessary to Save Poland

Witness Testifies That the Bolsheviks Are Spreading Typhus in Poland

(By United Press)

Washington, March 5.—Bolshevik attack and invasion of Poland are imminent, according to government advisers, Wm. R. Cassel, a state department agent, told the house rules committee today in an urgent appeal for relief by the United States Grain Corporation for Poland, Armenia and Austria.

"Apparently the bolshevik forces on all other frontiers are about to descend against Poland," said Cassel. "The Poles have shown careful patriotism, but without aid cannot hold out much longer. They have been on the verge of signing a peace with the bolshevik several times."

Cassel read from state department reports showing that the bolshevik are causing a plague of typhus in Poland, and unless it is in some way checked, they will threaten the world with the greatest plague in history.

"The bolshevik are loading their typhus plagues in armoured motor cars and taking them to the Polish border and forcing Poland to take them in," he said.

"Europe is helping but American food is necessary to relieve this terrible situation."

Cassel is connected with the drive to force republican house leaders to allow passage of a bill providing \$50,000,000 for relief of Poland, Armenia and Austria. Cassel told of the starving conditions in Austria. He said that in Vienna children are kept alive on one meal daily. Rep. Johnson of South Dakota suggested that the \$25,000,000 anti-saloon league is asking, should be used for foreign relief instead of trying to make the world dry.

Soviet Armies Being Made Into Strong Military

(United Press)

London, March 5.—Generals Brusiloff and Klembousky, Russian soviet commanders, are enroute to Moscow to assume joint administration of Russian military affairs, according to advices here.

The soviet government, it was stated today, plans an extensive reorganization of its army now largely under command of generals who were formerly in the czar's army. Under direction of these men, British military experts admitted the Russian military machinery is being welded into one of the most formidable military machines in Europe.

Dutch Government Maintains Position

Says She Is Conscious of Her Duty Because of the Kaiser's Presence and Will Do It

(By United Press)

The Hague, March 5.—The reply of the Dutch government to the latest allied communication on extradition of the former kaiser maintains Holland's original position declaring that she is fully conscious of the duties imposed upon her by the presence of the former emperor of Germany.

The Dutch government, the note says, regrets that the powers apparently are under the impression that it is not aware of all these duties and responsibilities. The note is such that from the beginning Holland has acted according to her duties and intends to continue to act in this way.

The Dutch government, the reply continued, has taken proper precaution and has restrained the liberty of the former kaiser. The Dutch government trusts that these explanations will remove the allies' fear.

Exnet Pledges of Kaiser

London, March 5.—The Dutch government has decided to allow the former kaiser to live in his new home at Doorn, but will exact many and strong personal pledges from him that he will not move without the government's consent and will not participate in political affairs, an Amsterdam dispatch said today.

PUBLISHING SOCIETY WINS SUIT AGAINST SCIENCE BOARD

(By United Press)

Boston, Mass., March 5.—The trustees of the Christian Science Publishing Society today won a suit against the Christian Science board of directors to restrain the director from interfering with the society.

At the same time John V. Dittmore won his suit for reinstatement as member of the board of directors. John Frederick Dodge, as special master, found that the directors had no legal right to remove Lamont Rowland from the board of trustees and that charges against him were not sufficient in law or made in good faith. It was also held that directors had no power to discharge Dittmore and that even if they had the power, the reasons assigned were insufficient and not made in good faith.

The suit involved interpretations of two declarations and trusts made by Mrs. Mary Baker Eddy, founder of the church. The first made Sept. 1, 1892, gives to four trustees to be known as the Christian Science board of directors certain power, by which the mother church was later erected. The other Jan. 25, 1893, gave to three trustees the property of the Christian Science Publishing association for promotion of the interests of Christian Science and requiring payment of the net profits to the treasury of the mother church.

The suit was started in March, 1919, when the board of directors, Dittmore dissenting, attempted to dismiss Rowland.

Farm Bureau Federation Against Strikes and Shorter Hours

Chicago, March 5.—The American Farm Bureau Federation was on record today as opposed to radicalism, strikes and shorter working hours. Resolutions were adopted by the convention urging legislation to benefit farmers.

Rialto Theatre Burned in St. Paul

St. Paul, March 5.—The Rialto theatre and four adjoining stores were damaged by fire early today. Firemen battled the flames for five hours in zero weather. The loss is estimated at between \$50,000 and \$100,000.

Water flooded the streets. Hose lines were frozen stiff. The fire equipment was covered with ice and the firemen's clothing was an icy armor. Beside the theatre the C. Coplin shoe store, J. McGuire saloon, the Rialto restaurant and the Rialto candy kitchen were damaged. Water freezing on the streets tied up street car service.

Greece Given Thrace, Smyrna and Adriatic

ED L. KEEN,

(United Press Staff Correspondent.) London, March 5.—Political observers today saw in the decision of the council of foreign ministers to award Thrace, Smyrna and Adrianople to Greece, another victory for Premier Venizelos.

The decision of the council was made known last night. It came after considerable debate. Earl Curzon, British secretary for foreign affairs, presided. Details remain to be worked out, the announcement said. The chief object of the plan is to keep the holy places in the territory awarded to Greece open to Turkish pilgrims, and under Turkish control.

Turkish warships probably will be loaned, it was learned.

Farmers Cooperative Associations Flourishing

Board of Officials to Ask Congress to Repeal Anti-Trust Law, as It Restricts Them

Washington, March 5.—Through a cooperative association farmers now are selling approximately \$1,500,000,000 worth of products annually, according to reports to the national board of farm organization. Board officials here today were making plans for a drive on congress to lift restrictions, declaring that the anti-trust law imposed upon the farmers who wish to extend their cooperation activities.

Laughing Bandit Gets Sentence

Admits Four Holdups in Pittsburgh, and Two in St. Paul

(United Press)

St. Paul, March 5.—Louis Henry Ross, known as the "laughing bandit," of Pittsburgh, was sentenced to the Stillwater penitentiary today for an indeterminate term for robbery. Ross is twenty years old and remarkably handsome, in the view of the police. He created a dramatic scene in the court room when he stood beside his sixteen-year-old wife to receive his sentence. Weeping, for the first time in ten years, Ross pleaded for clemency for the sake of his wife. He had admitted to four holdups in Pittsburgh, where police say his father is a police sergeant. He confessed to two holdups here.

Liner St. Paul Forced to Return Because of Boilers

New York, March 5.—The American liner, St. Paul, whose boiler tube began to leak and was forced to abandon the trip to South Hampton, has arrived at Halifax, according to a wireless from the ship. The St. Paul will return to New York for a general overhauling. The passengers and crew crossed the Atlantic on the Cedric and the Canada.

Try to End Debate on Treaty

Kellogg Submits New Reservation on Article X—White House Considering It

L. C. MARTIN,

(United Press Staff Correspondent.) Washington, March 5.—A definite move to end debate on the peace treaty is expected to be submitted in the senate tomorrow it was indicated in the senate today.

It may be a motion to recommit the treaty to the foreign relations committee thus getting it out of the senate, or to bring up Article X at once, and thus come quickly to the core of the matter. The consideration of reservations went on today. Lodge, angered by the refusal of the democrats to act upon the work of the recent bipartisan conferences, has announced he will offer no more amendment to his reservations.

At the same time democrats are awaiting word from the White House concerning a proposed compromise on Article X prepared by Senator Kellogg, and submitted by him to Lodge. Lodge sent it to the democratic senators and they transmitted it to the White House with a request that President Wilson pass on it. There is little hope among senators that Wilson will accept it. It is understood not to change vitally the Lodge reservations and the president has frequently emphasized he will never accept a reservation containing the principle of Lodge's proposal.

DEMOCRATIC SENATORS WOULD COMPROMISE ON ARTICLE TEN

Hitchcock Asks President to Receive Senator Simmons as Embassy of Compromise Senators

L. C. MARTIN,

(United Press Staff Correspondent.) Washington, March 5.—Senator Hitchcock, democratic leader, has written President Wilson, asking him to receive Senator Simmons as an embassy of the democratic senators who want to compromise on the reservations to Article X of the peace treaty. It was learned today.

Add Martin 1/4 1/4 ? ? ? ? Senator Simmons has been commissioned by a number of democrats to see whether the president will approve a compromise that they are willing to support, and which certain republicans will vote for.

Senators concerned in the move to get the president's view, said they simply want to know what the president thought. They would then make up their minds whether they would go against his wishes or abide by them.

Senator Knox, republican, today offered to the senate a reservation providing that the credit of the United States shall not by any means be pledged by any representative of the United States or by the league of nations without the prior consent of congress. The senate began consid-

Crew of Steamer Arrested for Mutiny

(By United Press)

Newport News, Va., March 5.—Thirty-four members of the crew of the shipping board steamer Poughkeepsie who were placed under arrest upon the arrival of the vessel from Bermuda at this port last night, will be arraigned late today on a charge of mutiny.

GIRLS CHARGE NEW YORK POLICE HAVE SYSTEM OF GRAFT

Greatest Upheaval Since the Becker Case Likely to Follow Indictment

New York, March 4.—Startling revelations as to the police department were predicted at the district attorney's office today after John J. Gunson, a police detective, had been indicted on charges of bribery and extortion. Three women testified before the grand jury against him.

Further indictments against members of the police force were forecast and it was said that disclosures would result in the greatest upheaval in the department since the Becker case.

Evidence has been obtained that some detectives are not only grafting upon women but are preventing them from leading better lives, according to the district attorney's office. Rebecca Melyado, one of the witnesses against Gunson, testified that in three years she had paid a detective sums totalling \$5,000. She posed as this detective's sister, she said and assisted him in arresting other girls who refused to pay detectives. Her testimony was corroborated by Stella Young, it was announced.

In a statement to newspaper men, Gunson declared that he was a victim of a "frameup."

French Object to Economical Policy of Allied Council

Say This Policy Will Restore German Industries Before the French Industries Can Recover

HENRY WOOD

(United Press Staff Correspondent.) Paris, March 5.—The French government has taken the position that the European economic situation as agreed on by Premiers Lloyd George and Nitti, will lead to the rehabilitation of German industry more quickly than France, according to an authoritative statement today.

German industries were little affected by the war because German territory was not invaded to any extent, hence the German government faces much easier problems than do the French. And, the French asserted, France's great industrial cities were laid to waste.

Should the proposed economic policy be put into effect a rapid rise in the value of the German mark is sure to follow because German industries will come rapidly back to normal.

The French franc on the other hand cannot increase in value until France has rebuilt her devastated areas and has her factories again in operation. As to Russia, the French feel that the policy of the allies wrecks all knowledge of real citizenship. Russian commerce without recognition cannot be developed to any great extent. The French hold Russian railroads must be rebuilt, which the French declare will require one billion francs and six months time.

And further, the French do not believe that Russia has extensive stocks of cereals and raw material to supply other countries. Russia, they pointed out, has not definitely promised that she can supply food stuffs in any quantity. The soviet, they also pointed out, has emphasized that Russia needs manufactured goods, particularly farm machinery and that they stand ready to pay for these products in gold and precious stones and not in foodstuffs.

Terms are Modified

Paris, March 5.—The French foreign office announced that the economic decision of the council of premiers with regard to Russia and Germany, had been modified to meet the French viewpoint. The text of the economic note will be given out soon.

Illicit Stills Seized and Brandy Confiscated

(By United Press)

Hurley, Wis., March 5.—Sherman White and the state fire marshal returned today with Jack Costa and two alleged illicit stills which they say they confiscated near Saxon. Two hundred gallons of mash and eight barrels of brandy were also taken. Costa claimed he made the wine for his own use, but the officers say they have evidence of a sale of a jug of the brandy. These cities are close to the Wisconsin-Michigan peninsula border.

Bloody Battles Reported in Portugal

Between Government Forces and the Rebels, Who Sought to Institute Soviet Control

(By United Press)

Paris, March 5.—Madrid dispatches today said that a bloody battle between rebels and government forces was under way in Portugal. Many persons have been killed and wounded in fighting in Lisbon and Oporto the dispatch said. The trouble, it was reported, grew out of the efforts of radicals to institute soviet control of industries.

Earlier dispatches from Moscow quoted the Portuguese legation as denying the report received from the Spanish frontier that radicals had started a rebellion in an effort to establish soviet government.

Aishton Offered Presidency of American R. R. Association

(By United Press)

Chicago, March 5.—R. H. Aishton, former regional director of the railroads under government control, and former president of the Chicago & Northwestern railroad, has been offered the presidency of the American Railroad Association, it was learned today. He has not definitely decided whether he will accept, he said.

Suffrage Supporters Hope to Secure West Virginia Ratification

(United Press)

Charleston, W. Va., March 5.—Suffrage supporters in West Virginia are clinging to one thread of hope, Mrs. Ellis Vost, chairman of the women's organization working for ratification of the suffrage amendment, announced today.

Senator Block now is enroute from California to cast a ballot in the senate and break the 14 to 14 tie. Supporters claim to hold the senate in session by means of the 14 votes until Senator Block arrives.

Non-Partisan League Wins Office in Texas

(By United Press)

Houston, Texas, March 5.—Incomplete returns today showed the coalition of labor unions and the nonpartisan league succeeded in landing one of four offices in yesterday's election in the fifteenth and sixteenth districts of Texas. This is the league's first appearance here in politics.

Blizzard Ends Followed by Cold Weather

(By United Press)

Chicago, March 5.—The force of the blizzard which tied up traffic and hampered communication throughout the middle west yesterday, was spent today. Cold weather followed the storm. The temperature dropped 30 degrees in twenty-four hours in Chicago. Below zero weather prevailed throughout the west. Trains were running hours late because of deep snow and cold. Street cars were tied up in many cities. The heavy snow was welcome, however, throughout the winter wheat growing region.

Another Federal Judge Nullifies Volstead Law

(By United Press)

Milwaukee, Wis., March 5.—Federal Judge F. A. Geiger today enjoined federal officials from enforcing the Volstead act in the western district of Wisconsin. The injunction was stayed, however, by District Attorney Sawyer who ordered a writ of superceda, and appealed to the United States supreme court at once. Brewers who may manufacture 2 5-10 per cent beer if Geiger's decision is upheld, said no such beer will be made until the end of the war is officially proclaimed.

Thus Ended the Bloodless "Rum Rebellion" at Iron River, Mich.

The "rum revolt" at Iron River, Mich., ended without bloodshed, although Major A. V. Dalrymple, prohibition enforcement officer, went to Iron River from Chicago with armed men and the avowed intention of arresting local officials who were ac-

quiescent of the Volstead law. The photograph shows one of the most exciting incidents of the "rebellion"—Major Dalrymple smashing the heads of barrels of seized wine. The nearest approach to bloodshed was the red-

dening of the snow as the wine gushed out. Major Dalrymple is seen smashing the casks while a battery of movie cameras clicked. At the right, wearing a Stetson hat, is Leo Grove, local prohibition officer, who is watching the proceedings with evident enjoyment.

POLES HELP REBUILD FRANCE

Paris (By Mail).—Each dressed in
a complete outfit of American cloth-
ing, from socks to cap, 10,000 Polish
workmen, engaged by agents of the
French government for reconstruction
work in the devastated regions of
Northern France, are already at
work among the ruins of the repub-
lic's once thriving industrial section.

The arrangement by which the
Poles were brought to France for the
vast work of re-making the country
torn to shreds by the Germans is look-
ed on with favor by both the French
and Polish governments. Consider-
able unrest reported in Poland has
been solved by finding work for thou-
sands of idle but able-bodied men.
Likewise, France faced the project
because she had been depleted of so
much man-power that industrial
stagnation was imminent but for
speedy re-building of factories and
re-arrangement of towns.

Before the workmen left Warsaw
they were supplied with complete
outfits of clothes by the American
Red Cross. It is likely 100,000 more
men will be recruited from Poland to
advance more speedily the work of
reconstruction.

The workmen are to be paid from
indemnity funds paid France by Ger-
many. Provision has been made for
allowance to the men's families out
of their pay during their absence.

Improved Stereopticon.

A recent development of the stereo-
opticon operates automatically, throw-
ing upon a screen a certain number
of lantern-slide views, usually 46, but
100 or 200 or more by special adapta-
tion. The apparatus includes a 1,000
candle power nitrogen-tungsten lamp,
condensing and objective lenses, and
a small motor to be connected to a
lamp socket on either a direct or alter-
nating current circuit. The machine
shifts the slides automatically, allow-
ing each picture to remain on the
screen 12 seconds before being re-
placed by the next. The outfit with
seven slides, etc., packs into a suit-
case, and is especially fitted to enable
the traveling salesman to show goods
by picture, though also adapted for
educational displays, home entertain-
ment and a great variety of other pur-
poses.

Valuable Tree.

A giant kauri tree has been logged
by the Queensland forest service and
the timber sold for \$1,000. It was
known as Bell's tree and yielded 17,
000 superficial feet of timber in five
huge logs, and the logging costs
amounted to \$500. The net stumpage
came to twelve feet 6 inches per 100
super feet. Had the tree been smaller
a higher prize would have been real-
ized, as few saw-millers cared to han-
dle it. This giant of the forest was
offered to a timber-getter for \$50 on
the stump, being at the rate of less
than 20 cents per super foot, twelve
years ago.

On Blaker's Day.

Charles had been going to kinder-
garten about two weeks. During this
time the children had been taught the
song "When the Sun Wakes Up at
Break of Day." The little fellow liked
it very much and tried to sing it at
home. The children had been told
about Mrs. Blaker living above the
kindergarten and that she could hear
them singing.

This fact, with the words of the
song made a deep impression on
Charles. When he reproduced the song
at home, this is what he insisted was
correct: "When the Sun Wakes Up on
Blaker's Day."

St. Cloud Journal Press in Items of "25 Years Ago," Refers to Billy Phyle, Pitcher

In items in the column of "25 Years Ago," the St. Cloud Journal Press refers to Billy Phyle, one of the noted Brainerd pitchers who went on to higher company. The article states:

"Billy Phyle, the base ballist, is in receipt of a proposition from Captain Dahlgren of Evansville, Ind., of the southern league for Phyle to pitch this season for the Evansville nine. Billy is one of the best men in the box in the west and made a wonderful record both for playing and batting last season for Brainerd. He will make a reliable man for the Evansville nine, should he conclude to sign for them."

NORTHWEST NEWS

Hudson Bay Railroad

Winnipeg, March 5—Insistent demand for completion of the Hudson Bay railroad on which the government has already spent \$13,000,000, is growing, particularly among the farmers. The government is being asked to spend eleven million dollars more to complete the project.

The history of the Hudson Bay railroad is as romantic as any of the pioneering by individuals or governments on the continent.

More than a quarter of a century ago demand arose that communication be established with Hudson Bay. Finally in 1898, location work was begun and in 1911 the railway was already under construction.

After the lapse of nine years the railway is still uncompleted. From The Pas, Man., to the second crossing of the Nelson River at Kettle Rapids, a distance of 322 miles, the track is laid. For the remaining 92 miles to Port Nelson the grading is completed. Over thirteen and a half millions of dollars have been expended on the railway and six and a half millions of dollars have been expended on the harbor improvement at Port Nelson.

During the last three years little work has been done either on railways or harbor improvements.

It is estimated the new route will provide an outlet for thirty million bushels of western wheat at a smaller cost than by the already completed route to the eastern seaboard.

When the railway reaches the Bay it will throw open a larger area for investigation and financial enterprises than will any other railway to be built in Canada for several generations it is believed.

Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. Amber Beads Long Popular.

The superstition which clings to the meaning of beads is of ancient origin. The custom of wearing an amber necklace was immensely common and is not yet extinct among old women in England. The amber, when heated sends forth an agreeable perfume. In olden times it was the present made by a mother to her daughter on her wedding eve.

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delicate toilet preparation to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

FRIDAY, MARCH 5, 1920

CONTINUE THE CONCRETE

Tomorrow the Board of County Commissioners and City Council receive bids for the paving of Oak street from 19th to 6th street.

Concrete paving is under construction on the street and road east of 19th street. By all means the new contract should provide for concrete paving.

Possibly it has not occurred to the citizens that it will be otherwise but there is a movement on foot to use the old macadam pavement, which has been worse than useless the last five years, as a base for a bituminous surfacing.

Bituminous pavement is made by mixing an asphaltic compound with crushed rock and is a patent process owned by Warren Brothers of Boston to whom a royalty is paid for every foot of this pavement constructed.

This old macadam base is not heavy enough. Concrete pavements travelling over it have gone completely through it in innumerable places. This street in the future will have to stand a very heavy freight traffic to the range.

It is to be hoped that the County Board and City Council will show their usual good judgment by ordering a concrete pavement and not waste the tax payers' money in any make shift paving regardless of how cheap it may appear to be at the time, and how plausible an explanation may be given by those advocating it at a profit to themselves.

GEN. WOOD'S ENEMIES

Some men are the more to be admired and respected because of their enemies. This was true of Roosevelt and it is true of Leonard Wood.

The Duluth Herald says it cannot accept him because he is a militarist. Actually it doesn't like him because he is a strong, clean man of character, most dangerous to the peace and security of the office holders of the present administration.

He is too much of a militarist for the Herald but not enough of a one for the War Department, the Army General Staff, and some of the clique of West Point graduates, and so powerful and sinister influences are there at work against him. They do not want him as president because of the shakeup that would follow.

The stand-patters and the party bosses in the republican party don't want him either. He has been too

Indicate a friend of Theodore Roosevelt's during the last thirty years.

Their ideals and principles were the same and their continuously intimate friendship was based upon these and their mutual respect for the honesty, character and patriotism of the other.

Leonard Wood does not suit them but he does to a remarkable degree suit the men who have served, or been in any way associated with him either in the army post, the cantonment, Cuba or the Philippines. He is going to suit the average, hard working, law-abiding, honest American citizen when he becomes president.

BURNQUIST SAYS LINDBQUIST'S FOES WOULD RUIN PARTY

Governor, Defending G. O. P. Chairman, Asserts "Smith-Carpenter-Rahn Forces" Seek Revenge

Governor J. A. Burnquist in a signed statement comes to the defense of his secretary, Gustaf Lindquist, and accuses prominent Minneapolis republicans of conspiring to destroy the republican party in the state because they have not permitted to exercise a controlling voice in its councils.

The Governor Says

"In view of the attacks in the press from time to time reflecting upon the state republican organization and its present chairman, I feel I owe it to the people of the state to show the animus back of these attacks and the reasons why they are being made by those responsible therefor.

"A certain few in Minneapolis are mainly responsible for this situation. They constitute the Smith-Carpenter faction, consisting of E. E. Smith who was a former chairman of the state committee, Fred H. Carpenter, of the F. H. Carpenter Lumber company, and A. A. D. Rahn, vice president of the Shevlin-Carpenter Lumber company, all members of the state central committee, but none of whom were re-elected to their position by the present governor.

"These men have been and are anxious to get control of the politics of this state. Their policy has come to be one of rule or ruin. They well know that the attitude of the present administration has been and is one of independence; that it is at all times against any corporations or individuals when it thinks they are in the wrong and for those that it feels are in the right. It is evident that this Minneapolis clique is not satisfied with such a position. What they want is an administration that is for them whether they are right or wrong.

"If this Smith-Carpenter combination is republican, they should help build up the republican party. Instead of doing that, they are attempting to destroy it. Why they are doing so is evident from the facts that I shall disclose and which I feel the people of the state ought to know.

"In the last campaign, E. E. Smith was very anxious to have Mr. Carpenter appointed state chairman. Because of his connections, I felt this to be inadvisable. I took the position that I wanted Mr. Lindquist as the campaign manager, for I knew he had no affiliation with any interests or factions that would lead to any embarrassing complications in the independent contest I wished to pursue.

Says Attack Will Help League

"Not being able to thus get control of the republican state committee, it was evidently the aim of the Smith-Carpenter forces to try to acquire influence in the national convention by getting control of the Minnesota delegation, for, after my address before the national committee in Chicago, more than a year ago, Mr. Smith asked me to allow my name to be used for the purpose of securing the Minnesota delegation for myself for the presidential nomination. I informed him at the time that I was a candidate for no position. Had I left the management of such a campaign in the hands of the above named combination, no objection would now, in my opinion, be stirred up against Mr. Lindquist, the present chairman of the republican central committee.

"Certain reporters, who have been on intimate terms with the Smith-Carpenter element, are now engaged in fomenting the opposition of men who are not familiar with the facts. The attitude thus assumed is one that will assist the Nonpartisan league and the enemies of the republican party. The last attack on the state chairman, which was inspired by them because of a letter written to a former employee at the latter's request, stating my position on the presidency, is an illustration of the swiftness of their tactics.

Recall's Smith's Experience

"The last person in the world who ought to object to a state chairman expressing his personal views on political matters is Mr. Smith, who for

several years was chairman of the state central committee and worked day and night for the nomination of Governor Eberhardt in pre-convention fights, and who, in the presidential campaign of 1912, received, while state chairman, a stinging public rebuke from Theodore Roosevelt, not because he took a stand for Taft, but because of his unfair activities in the pre-convention fight of 1912. These facts show how much of sincerity there is back of the charges of his faction against the present state chairman.

"During the regular legislative session, Mr. E. E. Smith served notice on me that he would ruin the republican administration of this state if I, as governor, opposed in any way the proposed convention bill which I felt would mean a return to the old boss ruled convention system. On the day after the receipt of said notice, I sent a special message to the senate stating my opposition to any return to the old bossruled convention and advocated such changes in the primary laws as would tend to the expression of the will of the majority of the people instead of a minority.

Says He Won't Be Dictated To

"Since refusing to appoint Mr. Carpenter as state chairman and taking the position that I took on the proposed convention bill, this Smith-Carpenter faction have endeavored in every way possible to embarrass the republican chairman chosen at my suggestion—Mr. Gustaf Lindquist. The attacks upon me since the special session for vetoing the tonnage tax bill, which I conscientiously could not sign because I believed it wrong has been used by some of this faction in an attempt to injure me and the republican party. They are thus actually playing into the hands of its enemies.

"The opposition to the legal republican organization so carried on is now showing itself in the presidential fight in Hennepin county, which gave the state republican party such a large vote at the last election. Personally, I wish to express to the voters of that county, as I have before done, my sincere appreciation of the vote then received. I believe I had at that time the support of practical all of the loyal Hennepin county republicans. This was gratefully received because there were no strings

DECREE AWARDED

Mrs. Lottie May Hamilton Granted Divorce from R. B. Hamilton Custody of Child

In the case of Lottie May Hamilton vs. Robert B. Hamilton, action for divorce, a decree was entered by Judge W. S. McClenahan wherein the plaintiff was granted an absolute divorce and awarded the custody of the minor child, Arville Marie Hamilton, age three, and the defendant is to contribute \$70 a month for support of plaintiff and child.

An agreement entered into by plaintiff and defendant gives Mrs. Hamilton all household goods except a rocker, library table and library lamp, and that the defendant is to execute to her an assignment of his interest in a contract for deed to real estate.

The couple was married October 19, 1913, in Bemidji and plaintiff is 27 years old and defendant 29. Malicious, cruel and inhuman treatment was alleged by the plaintiff, that she was once struck with a hammer by him, that she was neglected in the way of entertainment and pleasure, to all of which the defendant entered a general denial.

Mrs. Hamilton was represented by W. H. Crowell, and Mr. Hamilton by D. H. Patterson.

Fort Ripley Farmer Raised Corn Which State Exhibited at the Chicago Exposition

LETTER FROM FRED D. SHERMAN

Commissioner of Immigration Compliments Farmer Peterson on His Corn Showing

In a letter to County Agricultural Agent E. G. Roth, the state commissioner of immigration, Fred D. Sherman, writes as follows:

"Last fall upon my request you very kindly sent me a sample of very nice corn grown by J. H. Peterson, Fort Ripley. This corn upon its arrival was mounted upon a regulation size board, ten of the best ears being displayed in pyramid form. This in turn was shipped with the 86 counties' exhibits to the International Live Stock Exposition which was held for two weeks in Chicago this winter and this display was on exhibit for two weeks, the same as every other county's corn exhibit. Each display was labeled very plainly, as for example, 'Grown by J. H. Peterson, Fort Ripley, Crow Wing County, Minnesota.'"

"At the close of the exposition I placed the Crow Wing county display together with the other 85 county displays in storage in Chicago. This display will be sent next to St. Louis, Mo., where it will be placed upon display at the Mississippi Valley Development Exposition to be held in the Coliseum in that city March 1 to 15. It will then be shipped back to St. Paul to be displayed at my permanent exhibit room, 313 Jackson street."

"I understand what you mean relative to the corn provided this department by A. M. Peterson of Crow Wing county. This Mr. Peterson provided something like four or five bushels of corn with the husks on and this corn was used for decorative display purposes in the Minnesota booth, but the corn that was used in the ten ears from every county in the state was furnished by J. H. Peterson of Fort Ripley and I can assure you the same is very much appreciated."

"Perhaps I should have replied, acknowledging receipts of each shipment as fast as it came in, but if you have ever attempted or if you ever do attempt to assemble an exhibit of any kind from every county in the state, you will find that it is a much larger job than it appears to be at long range. Many of the counties, yours among them, came in very promptly but a great many of the counties I was obliged to write four or five letters and as a last resort use the telephone and telegraph."

"However, I wish that you would inform J. H. Peterson that his corn is on display and the same is labeled to the credit of himself, his town and county."

APPLIES FOR DIVORCE

Roy E. Waite Asks for Divorce from Jessie May Waite, Complaint and Answer Filed

In district court Roy E. Waite has commenced action for a divorce from his wife, Jessie May Waite. The couple was married in Little Falls in 1911 and has no children. Mr. Waite makes the unusual charge of cruel and inhuman actions on the part of his wife.

The plaintiff is represented by Swanson & Swanson and the defendant by R. C. Rosenmeier of Little Falls.

In his complaint Mr. Waite states that his wife taught school in Brainerd from September, 1917, to June, 1918, at which time she removed to Little Falls and is now living there. He saw service in the U. S. army. He alleges the defendant has been continually finding fault with him, nagging him, calling the defendant and his relatives improper names, finding fault with him at home and that she was jealous of plaintiff's actions, so he could not talk with other women. He alleges she left her five different times, each time returning and through correspondence endeavoring to make up and again live together.

In the answer filed by Attorney C. Rosenmeier, of Little Falls, representing the defendant, it is denied that there was any cruel and inhuman treatment of the plaintiff by the defendant.

The defendant alleges that all during their married life, she has to the best of her ability fulfilled every demand placed upon her as plaintiff's wife, that she has taught school during a great part of the time she was married to plaintiff, for the sole purpose of assisting and helping the plaintiff to meet the expenses incident to housekeeping and married life, that the money she earned went into a common fund for both, that he never supported her except in the first year of married life, that he never contributed to her support except such money she received from the United States government while he was in the war, that his travels about the country were due to his loving disposition.

Don't worry about the high price of jams, jellies and preserves. Serve Karo, the Great American Sweet. Buy it by the dozen cans. An important message. Read it!

AMONG the twenty odd million American Homes there is probably not a single one where Karo is not served in some manner—for breakfast, for dinner or for supper.

During these days of high prices, Karo has become another word for economy. Thousands of thoughtful housewives have learned that *Blue Label* Karo is not only a delicious spread for pancakes, but answers every purpose where a sweet is needed.

Instead of paying the present high prices for jams, jellies and preserves—serve *Blue Label* Karo on sliced bread, toast, pancakes or waffles.

Do as the wise cooks are now doing: Use Karo to stew dried fruit, prunes; use it for candied sweet potatoes, brown bread, muffins, coffee cake and puddings.

Karo Home-made Candy is the best for children. It is wholesome, easy to make, costs much less than store candy.

Mothers give children *Blue Label* Karo and sliced bread because it satisfies Nature's craving for sweets and takes the place of candy.

IMPORTANT

There never was such a demand for *Blue Label* Karo as today. Housewives everywhere are buying it by the dozen cans. Ask your grocer the price per dozen. For economy's sake buy it this way.

When Woman Proposes.

It was not leap year when Queen Victoria offered her heart and hand to Prince Albert, whom etiquette prevented from proposing to the queen of England, but Sir Robert Peel declared that his sovereign was "as full of love as Juliet," and the marriage, which was solemnized in leap year, proved a union of perfect bliss.

Pity the Egotist.

The egotist does not take kindly to criticism, yet because of his exalted opinion of himself is overready to criticize. He is blind to his own mistakes and shortcomings, stubbornly persisting in chosen courses of conduct even after they have cost him dear and their folly has been pointed out to him.

Ruse Didn't Work.

It was the night before Christmas and mother was having a great deal of trouble getting little Helen to go to bed, and finally said, "Santa Claus said you'd been coming tonight, so you must get to bed and 'a sleep,' when mother's angel child answered: "Don't you think we'd better stay up and 'celebrate' him?"

Proper Food for Parrot.

Parrots in the wild state live on seed and fruit, and should, while in captivity, be fed as nearly as possible the same kind of food. They should be fed sunflower seed, hemp seed, hulled yellow corn, stale bread soaked in water, an occasional piece of apple or banana, roasted peanuts, dry crackers. Plenty of water and gravel should be kept in the cage. The parrot's cage should be cleaned every day.

Restricted Chinese Immigration.

In 1894, on Dec. 7, a convention relating Chinese immigration was ratified by the United States and China. This agreement prohibited the immigration of Chinese laborers to the United States, but admitted officials, students, merchants and travelers. American laborers at the same time were barred from China.
